

## February 2015

### Wilka nya möjligheter ges när kontroll över betalningsflödet ökar?

Datum: Torsdag 19 februari  
Tid: 09:30-10:15  
Språk: Svenska  
Plats: Din dator/telefon/surfplatta  
Kostnad: Kostnadsfritt  
Arrangör: EBG | Network & Basware

Vi har länge talat om e-faktura och elektroniska flöden. I Norden sägs vi ligga långt framme och vi är tidiga med att anamma ny teknik. Basware gjorde under 2014 en global studie med 1 015 respondenter för att ta reda på hur man arbetar med automatisering och betalningstrategier och vilka konsekvenser dessa val får på likviditet och kassaflöde. Anmäl dig idag till ett webinar som, med grund i gjord studie, belyser hur företag hanterar likviditets- och kassaflödesstrategier sett ur såväl ett kund- som leverantörsperspektiv. Buster Olsborn, Basware går igenom resultaten i Sverige och analyserar innebörden.

### Hva skjer i det Norske fakturamarkedet når andelen efaktura øker?

Dato: 26. februar  
Tid: 09:30-10:15  
Språk: Norsk  
Sted: Din datamaskin / telefon / tablet  
Kostnad: Gratis  
Arrangør: EBG | Network & Basware

I Norge de siste årene har fokuset vært på krav i offentlig sektor om efaktura og ambisjonene knyttet til å begynne å bruke også elektronisk ordre og katalog. Utviklingen går stadig fremover med en økende grad av elektroniske og automatiserte transaksjoner i forskjellige organisasjoner.

Bortsett fra å takle kravene fra kunder og leverandører - hvordan kan organisasjonen dra nytte av automatisering av fakturaflyten?

## March 2015

### How quick do you get your companys money in?

Date: Wednesday March 18th  
Time: 11:00-11:55 AM CET  
Language: English  
Location: Your computer/phone/ tablet  
Cost: Free of charge but requires registration  
Organizer: EBG | Network & OpusCapita

Having control over your order-to-cash process is vital to gaining control over your cash and there are several ways of doing this. In a recent study made by OpusCapita 458 financial decision makers in Finland, Norway and Sweden were asked about their accounts receivable objectives and measures.

Aspects such as decreasing DSO (days sales outstanding), lowering the need for short term financing, minimizing manual work and errors as well as increase customer satisfaction are all valid to the order to cash process.

### All financial processes can be improved with second generation workflow!

Date: Wednesday March 25th  
Time: 11:00-11:45 AM CET  
Language: English  
Location: Your computer/phone/ tablet  
Cost: Free of charge but requires registration  
Organizer: EBG | Network & OpusCapita

About 15 years ago, Swedish companies started to invest in electronic supplier invoice management with the help of workflow systems. Since then the workflow market has developed and today many companies face a paradigm shift - time to join the development or stay status quo?

During autumn 2014, OpusCapita ([www.opuscapita.com](http://www.opuscapita.com)) presented a study regarding to what extent companies had developed their supplier invoice processes by introducing e-invoices and automation.

The idea of centralizing and outsourcing all or part of finance and accounting (F&A) has been around in the Nordics for quite some time. Lowering full time employee (FTE) costs and finding ways to utilize specialized competences have been the driving forces behind the development.

But what is the status today? To what extent have Nordic finance organizations managed to improve in efficiency and effectiveness? On a global note all agree head count cost reduction is given but what comes next?
